1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975 ("Equity Trustees"), a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's Responsible Entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's Constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Ventura Investment Management Ltd as the Investment Manager of the Fund. Equity Trustees has appointed a Custodian to hold the assets of the Fund. The Custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Ventura Investment Management Ltd

Ventura Investment Management Ltd ABN 49 092 375 258, AFSL 253 045 (Ventura) has been managing client portfolios in Australia for more than 10 years. Ventura is owned by Centrepoint Alliance Limited, a diversified financial services company listed on the Australian Securities Exchange.

Ventura's investment philosophy for the Ventura funds focuses on delivering risk adjusted, consistent returns for our clients, using a multi-manager approach in investing the fund assets. Ventura effects this philosophy through the appointment of a specialist manager which decides the investments it will make in accordance with the performance objectives and risk management guidelines agreed with Ventura under an investment management agreement.

Ventura selects and supervises the appointed specialist manager, providing independent oversight. Ventura reviews the investment manager on an ongoing basis to ensure they are performing to our investment expectations and managing the investments of the Fund according to the agreed processes.

Specialist Investment Manager

Russell Investment Management Ltd

Ventura has appointed Russell Investment Management Ltd ABN 53 068 338 974, AFSL 247 185 (Russell Investments) as the specialist investment manager for the Fund. Russell Investments, a global asset manager, is one of only a few firms that offers actively managed multi-asset portfolios and services that include advice, investments and implementation. Russell Investments provides solutions for institutional investors, financial advisers and individuals working with their advisers—using the firm's core capabilities that extend across capital market insights, manager research, asset allocation, portfolio implementation and factor exposures—to help each achieve their desired investment outcomes. The firm has AUD\$361.4 billion in assets under management (as of 30/6/2017) and works with more than 2,500 institutional clients, independent distribution partners and individual investors globally.

2. How the Ventura High Growth 100 Fund works

The Fund is a registered managed investment scheme. The Fund is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become a unit holder in the Fund. The operator or custodian of the IDPS will be the unit holder entered in the Fund's register and will be the only person who is able to exercise the rights and receive benefits of a unit holder. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the following explanation applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$20,000, or \$10,000 where you will be contributing to the regular investment plan.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Ventura Client Services
GPO Box 1406
Melborne, VIC 3001 Australia

Please note that cash cannot be accepted.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.22%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Fund is \$5,000 or for the regular investment plan, \$250 each month.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income quarterly at the end of March, June, September and December. Distributions are calculated effective the last day of each accounting period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, where an investor makes a large withdrawal request (i.e. the withdrawal request is in respect of 5% or more of the total units on issue), their withdrawal proceeds may be taken to include a component of distributable income.

Indirect Investors should review their IDPS guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Ventura Client Services
GPO Box 1406
Melborne, VIC 3001 Australia

Or sending it by fax to 1300 365 601

The minimum withdrawal amount is \$5,000, unless you are withdrawing all of your investment. You can also set up a regular withdrawal plan from the Fund each month for \$250 or more. Once we receive your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to such investors' nominated bank account. However, the Constitution allows Equity Trustees to reject withdrawal requests and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances).

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.20%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below a certain value as a result of processing your withdrawal request. Equity Trustees can deny a withdrawal request or suspend consideration of a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an indirect investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity the Fund will be subject to regular reporting and disclosure obligations. Investors would have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

The following significant risks apply to this investment:

- The level of returns may vary and future returns may differ from past returns.
- The value of investments will vary in line with movement in the value of the Fund's assets.
- Changes in the price of shares held for the Fund may result in a loss to the Fund. Many factors drive share prices, including profits made by companies and industries, economic cycles, volume of trading, investor demand, business confidence and government and central bank policies.
- As the Fund invests in international investments, it is exposed to currency risk. Changes in exchange rates may negatively impact the Fund. This currency exposure may be unhedged or partially or fully hedged, but as this involves derivatives, this can expose the Fund to other risks, as discussed below.
- Derivatives can be used to manage risks, but may expose the Fund to other risks. This includes the risk that a derivative may be difficult or costly to reverse, or that there is a negative movement in the asset, interest or, exchange rate or index the derivative is designed to track. A derivative may involve gearing, that is, liability for a loss from a change in price of a security, currency or index which exceeds the amount of cash or assets initially required to establish the derivative. The types of derivatives which the Fund may invest in includes exchange-traded and over-the-counter derivative instruments including currency forwards and swaps, interest rate and total return swaps and futures and options.
- Transactions in over-the-counter derivatives involve additional risk as there is no listed exchange for their disposal. Performance also depends on the financial condition of the counterparty.
- The Fund invests in emerging markets which are subject to a greater risk of loss than investments in developed markets due to greater political, economic and regulatory uncertainty, additional volatility and low market liquidity.
- If Fund investments are difficult to buy or sell, this can prevent sale of an investment or the rebalancing of the Fund in a timely fashion and at a fair price. If the Fund is required to liquidate assets to settle withdrawals, there is a risk that liquidation may be made on unfavourable terms, subjecting the Fund to loss.
- Short selling involves selling securities that may or may not be owned by the seller and then borrowing these securities for delivery to the purchaser with the obligation to replace the borrowed securities at a later date. A short sale involves the risk of a theoretically unlimited increase in the price of the particular investment sold short, which could result in the inability of the investment fund holding the derivative to cover the short position. The Fund does not hold any positions directly, but may have indirect exposure to short selling risks through investment funds it is invested in.
- The specialist investment manager may not achieve returns comparable to its peers or the investment manager may be changed by Ventura.
- The Fund could be terminated or the Fund's rules could change.

When considering investing in a managed investment scheme, it is important to understand that:

- returns are not guaranteed and you may lose some of your money

4 Ventura High Growth 100 Fund PDS

- laws affecting your investment in a managed investment scheme may change in the future.

The appropriate level of risk for you will depend on a range of factors including your age, investment time frame, where other parts of your wealth are invested and how comfortable you are with the possibility of losing some of your money in some years.

Your financial adviser can help you understand investment risk and help you design an investment strategy that is right for you.

5. How we invest your money

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

To provide capital growth over the long term consistent with a portfolio focusing solely on growth assets, while accepting fluctuations in capital values in the medium term.

Minimum suggested time frame

Suggested minimum investment timeframe is 7 years.

Risk level of the Fund

The Fund is expected to have a high return volatility.

Investor suitability

Investors who are seeking to build wealth over the long term and are willing to accept the possibility of negative returns over the short to medium term.

Investment style and approach

The Ventura High Growth 100 Fund is a multi-manager fund. This means that the investment responsibility is shared across a group of investment managers – each chosen for what the lead investment manager, Russell Investments, believes are outstanding capabilities. This means that you have some of the world's best investment ideas and managers contributing to your investment.

The appointed specialist investment manager, Russell Investments, also manages the currency exposure of the Fund.

Russell Investments also determine the assets types into which the Fund may invest and the level at which they are invested in those types. We generally aim to invest in 100% growth assets and 0% defensive assets, but this may vary by 10% either side of the specified target. Both growth assets and defensive assets are described below.

Growth assets – include Australian and International shares and property, each of which may be listed or unlisted on stock exchanges. Growth assets may include non-traditional assets types. For example, high yield, emerging markets, commodities, infrastructure as well as alternative strategies (e.g. hedge funds, long-short equities).

Defensive assets include cash deposits and money market securities, such as bank bills and certificates of deposits, corporate floating rate notes and interest rate swap contracts. They also include fixed interest investments issued by Australian and international governments and semi-governments and government agencies or companies, and structured credit investments including mortgage and asset backed securities.

Asset allocation

The Fund typically invests in a diversified portfolio mix with exposure to around 100% growth investments. Derivatives may be used to implement investment strategies.

	SAA	Range
Australian Shares	42%	25-65%
International Shares	42.5%	25-65%
Property	5%	0-30%
Alternatives	10%	0-35%
Fixed interest	0%	
Cash	0.5%	0-15%

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Equity Trustees and the Investment Manager do not generally take into account labour standards or environmental, social or ethical considerations for the purposes of selecting, retaining or realising investments.

Fund performance

Please see Ventura's website for any update, as well as for information on the current investment managers and their styles.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other simple managed investment schemes. Fees and costs are deducted from the assets of the Fund and reduce the investment return to investors. For information on tax please see Section 7 of this PDS.

TYPE OF FEE OR COST	AMOUNT
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
Management costs	
The fees and costs for managing your investment ¹	Management fees: 0.01% p.a. of the NAV of the Fund ²
	Indirect costs: 1.18% p.a. of the NAV of the Fund ³

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits ("RITC"). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below.

³ The indirect costs are calculated and incorporate estimated amounts with reference to the relevant costs incurred during financial year ended 30 June 2017. See "Indirect costs" below for more information.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the assets.

The management fees of 0.01% p.a. of the NAV of the Fund is payable to the Investment Manager for managing the assets of the Fund. The management fees are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as Responsible Entity fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are paid by the Investment Manager at no additional charge to you.

The management costs shown above do not include extraordinary expenses (if they are incurred in future), including litigation costs and the costs of convening members meetings.

In addition, management costs do not include transactional and operational costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through Buy/Sell Spreads).

Indirect costs

Indirect costs include fees and management costs (if any) arising from underlying funds and a reasonable estimate of the cost of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy. Indirect costs are reflected in the unit price of the Fund and borne by Investors, but they are not paid to the Responsible Entity or Investment Manager.

The estimated components of the Fund's indirect costs are based on the financial year ended 30 June 2017. Actual indirect costs for future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.22% upon entry and 0.20% upon exit. The dollar value of these costs based on an application or a withdrawal of \$50,000 is \$110 (applications) and \$100 (withdrawals) for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional implicit cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread.

During the financial year ended 30 June 2017, the total transaction costs for the Fund were estimated to be 0.26% of the NAV of the Fund, of which 41% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost to the Fund of 0.15% p.a.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law. In most circumstances, the Constitution defines the maximum fees that can be charged for fees described in this PDS.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Ventura High Growth 100 Fund

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every \$5,000 you put in, you will be charged \$0
Plus Management Costs Comprising:	1.19% p.a.	And , for every \$50,000 you have in the Fund you will be charged \$595 each year comprising:
Management fees:	0.01% p.a.	\$5
Indirect costs:	1.18% p.a.	\$590
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then you would be charged fees of: \$595* What it costs you will depend on the fees you negotiate.

*This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only. Indirect costs are not a fee earned by or paid to the Responsible Entity or the Investment Manager.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread. Additional fees may be paid to a financial adviser if you have consulted a financial adviser. You should refer to the Statement of Advice provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Fund.

Further reading...

You should read the important information in the Reference Guide under "Additional information on fees and costs" about the fees and costs associated with investing in the Fund before making an investment decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT"), are attributed to them.

Further reading

If applicable, you should read the important information in the Reference Guide under "Other important information" about AMIT before making an investment decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and send your completed Application Form to:

Ventura Client Services
GPO Box 1406
Melborne, VIC 3001 Australia

Please note that cash cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the Application Form provided by the operator of the IDPS.

Cooling-off period

If you are a Retail Client (as defined in the Corporation Act) who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period, this could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unitholder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

When you sign this Application Form you declare that you have read and agree to the declarations above.
