Investor Tax Summary Guide

VMAPS 2020 Tax Summary Guide

This guide provides a general reference for the Tax Summary report to the ATO tax return labels for individuals, trusts, self-managed super funds and companies. Please note this guide provides general information only and is not intended to represent taxation, investment or professional advice.

This document provides general information in regards to the portfolio in question.

Clients who want CGT losses from prior years included on the Tax Summary report will need to manually record those losses in the portfolio. For the purposes of preparation of tax returns, the amounts included in the Tax Summary report should be aggregated with income, deductions and offsets earned on other transactions that are not part of this portfolio. If you have been a non-resident for tax purposes or you hold additional assets which are not part of this reported portfolio, we strongly recommend you seek further tax advice.

Non-concessional MIT income (NCMI) amounts reported are based on information made available and provided by managed investment trusts.

In addition, if you have any further questions in relation to your client's tax return, the general information presented in this guide or the reference to the ATO labels, you should seek professional tax advice.

There are three main sections in the Tax Summary report:

- » Assessable income, which is split into Australian income and Foreign income,
- » Deductions, and
- » Tax offsets, credits and NCMI.

For more information on recording your prior year CGT losses, refer to Carrying forward losses in the Tax and corporate actions section of the Online Help.

¹ Not all of the items disclosed on the Tax Statement requires disclosure in the tax return. For example, only total interest income requires disclosure in the tax return and not the individual components which may be disclosed on the Tax Statement.

² To the extent that multiple amounts need to be included in a specific tax return label, these amounts should be aggregated.

³ Any capital gains or losses derived or incurred outside an investor's portfolio will need to be added to the amount disclosed on the Summary Report prior to calculating your overall capital gain or loss position, and being able to include the amount in the tax return.
