Investment Objective

This suits investors with a minimum five-year timeframe. This portfolio also suits investors who desire a modest level of capital stability but are willing to accept moderate investment value volatility in return for commensurate potential investment performance, hence the 50 percent exposure to growth assets (shares, listed property and infrastructure) and 50 percent exposure to defensive assets (cash and fixed interest).

Investment Strategy

An actively managed diversified portfolio of securities with an average exposure of 50% to growth assets and around 50% to defensive assets. The portfolio is designed for investors seeking a balanced portfolio over the medium-to long term.
