Active High Growth Plus Models

Monthly Performance Report

As of 30/04/2025

Risk Profile		ICR		
	High Growth Plus	0.94%		
	Inception Date	Investment Horizon		

Investment Objective

This suits investors with a minimum ten-year timeframe or those who are willing to accept very high levels of investment value volatility to maximise potential investment performance. The 95 percent exposure to growth assets (shares, listed property and infrastructure) means that capital stability is not a consideration.

Investment Strategy

An actively managed diversified portfolio of securities with an average exposure of 95% to growth assets and around 5% to defensive assets. The portfolio is designed for investors seeking capital growth over the long term, investing predominately in growth assets.
